Re: Environmental Assessment
Sec. 16, T13S R12W
Sec. 32, T12S R12W

Dear Mr. Lindsey:

As I mentioned during our telephone conversation today, we are presently preparing an environmental assessment for mining on the above listed locations of State ownership and desire your input from the archeological and historical standpoint.

Mining is proposed to be conducted by Brush Wellman Corporation using open pit methods as an extension of their presently existing mine.

We are desirous of obtaining from you, information relating to the presence or absence of any existing significant cultural resources and the probability of discovering any presently unknown similar resources in this locale.

Your assistance in this project is greatly appreciated.

Sincerely,

DIVISION OF OIL, GAS, AND MINING

RONALD W. DANIELS, COORDINATOR
OF MINED LAND DEVELOPMENT
